

# Sofia Soerensen

Junior Front-End Developer & Applied Computing Student

+34 663 778 892 · sess@costmail.eu · Madrid, Spain · [sofiasoerensenportfolio.netlify.app](https://sofiasoerensenportfolio.netlify.app) · [github.com/SofiaSoerensen](https://github.com/SofiaSoerensen) · [linkedin.com/in/sofia-soerensen-2127b4225](https://linkedin.com/in/sofia-soerensen-2127b4225)

## SUMMARY

Junior front-end developer certified by SheCodes, currently studying Applied Computing & AI (FP Superior) at MSMK University, Madrid. Builds responsive web apps with JavaScript, React, HTML and CSS, including API and AI integrations. Co-founder of an early-stage SaaS startup. Actively seeking internships or junior opportunities in software development, front-end, or AI-related roles.

## EDUCATION

### Higher Vocational Training (FP Superior) — Applied Computing & Artificial Intelligence

MSMK University, Madrid · 2025 – 2027 · Specialisation: Software Development · Optional 3rd year: Bachelor's pathway

**Completed:** Python, MySQL database design & Python integration, Networking, Project Management & Agile/Scrum ·

**Currently studying:** AI & Intelligent Systems, Software Lifecycles, Security & Risk Management, Professional Practice

### Front-End Development Certification

SheCodes (Basics, Plus, React, AI modules) · Online · Completed 2024

## EXPERIENCE

### Co-Founder — Front-End Developer & Marketing

TempusTally, Time-Tracking SaaS Startup · 2024 – Present

- Contributed to the design and development of the company website; managed LinkedIn presence and content strategy
- Contributing as an equity co-founder (significant share) to product direction and early-stage growth

Additional work experience and academic background available on request.

## PROJECTS

### AI Meal Ideas App

React · SheCodes AI API · CSS · [aimealideas.netlify.app](https://aimealideas.netlify.app)

- React app using the SheCodes AI API to generate meal recipes from user-provided ingredients, with custom prompt engineering for clean HTML output.

### Dictionary App

React · Dictionary API · CSS · [sofias-dictionary.netlify.app](https://sofias-dictionary.netlify.app)

- Full-featured dictionary with definitions, audio pronunciation, synonyms, and images, built with React and live API data fetching.

### Weather App

JavaScript · OpenWeather API · HTML/CSS · [vejret.netlify.app](https://vejret.netlify.app)

- Real-time weather app with city search and 5-day forecast, built with vanilla JavaScript and a live REST API.

### Madrid Travel Guide

HTML · CSS · JavaScript · [madrid-travelproject.netlify.app](https://madrid-travelproject.netlify.app)

- Responsive multi-section travel guide with CSS Grid layout, custom card components, embedded maps, and mobile-first design.

Additional projects completed as part of SheCodes certification and independent study — available on request.
